Tuesday, November 30, 2021

## **“Learning from Patient Harm: A Case-based Presentation On Medical Errors and Patient Safety”**

**Presenters:** Richard Frye, MD and Cristine Velazco, MD

### **Learning Objectives:**

- Review and discuss a patient safety event, known complication or other adverse event that resulted in preventable harm to a patient
- Review action plans that have been put in place in response to the serious safety event, to decrease the likelihood of such events from occurring again
- Review current literature regarding types of errors that can occur in our health system and encourage care providers to speak out if the encounter situations where they believe there is a potential error occurring
- Describe a culture of transparency and improvement in an ongoing commitment to zero preventable harm

## Meet the Presenters:

**Richard E. Frye, MD**, an American autism researcher with expertise in neurodevelopmental and neurometabolic disorders. He is the Chief of Neurodevelopmental Disorders at the Barrow Neurologic Institute at Phoenix Children's Hospital and a Professor at the University of Arizona College of Medicine – Phoenix, Creighton University School of Medicine and The Mayo Clinic Alix School of Medicine. He received an MD and PhD in Physiology and Biophysics from

Georgetown University. He completed a residency in Pediatrics at the University of Miami, Residency in Child Neurology and Fellowship in Behavioral Neurology and Learning Disabilities at Harvard University/Children's Hospital Boston and Fellowship in Psychology at Boston University. He also received a master's degree in Biomedical Science and Biostatistics from Drexel University. He holds board certifications in Pediatrics, and in Neurology with Special Competence in Child Neurology. Dr. Frye is a national leader in autism research. He has authored over 200 peer-reviewed publications and book chapters and serves on several editorial boards.

**Cristine S. Velazco, MD**, is a board-certified General Surgeon. She is currently the Chief Pediatric Surgery Fellow at Phoenix Children's Hospital/Mayo Clinic Graduate School of Medical Education. She completed a master's degree in Anatomy and Neurobiology at Virginia Commonwealth University School of Medicine and earned her MD at the University of Vermont College of Medicine. Cristine completed her residency at Mayo Clinic Arizona in General Surgery. During her residency she was an Instructor of Surgery and completed a Research Fellowship at Harvard University/Boston Children's Hospital, working in the Center for Advanced

Intestinal Rehabilitation on short bowel syndrome and intestinal failure, as well as working with the Vermont Oxford Network. She also was a member of the Mayo Clinic Education Committee for both Arizona and Mayo Clinic's tri-site committee. After residency, she completed a fellowship at Cincinnati Children's Hospital in Pediatric Colorectal Surgery prior to returning to Phoenix to start her fellowship in Pediatric Surgery. Cristine has written numerous peer-reviewed publications and book chapters.

**\*Accreditation Statement:**

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Arizona College of Medicine - Tucson and Phoenix Children's Hospital. The University of Arizona College of Medicine - Tucson is accredited by the ACCME to provide continuing medical education for physicians.

The University of Arizona College of Medicine - Tucson designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**\*Disclosure Statement:**

All Faculty, CME Planning Committee Members and the CME Office Reviewers have disclosed that they have no financial relationships with commercial interests that would constitute a conflict of interest concerning this CME activity.
